

12-lead electrocardiography course

Introduction

SECTION 1: Summary of significance

SECTION 2: Configuring the axis and leads

SECTION 3: Ischemia

SECTION 4: Injury

SECTION 5: Infarction

SECTION 6: Ventricular tachycardia (VT) vs supraventricular tachycardia (SVT)

SECTION 7: Electrolyte disorders reflected in ECG changes

Activity summary

- Activity Title: 12-lead electrocardiography
- Release date: 2021-06-01
- Expiration date: 2024-06-01
- Estimated time to complete activity: 8 hours
- This course is accessible with any web browser.
- This course is jointly provided by Pacific Medical Training and Postgraduate Institute for Medicine (PIM). You may reach PIM at inquiries@pimed.com

Target audience

This activity has been designed to meet the educational needs of physicians, physician assistants, nurse practitioners and registered nurses involved in the care of patients experiencing life-threatening cardiovascular emergencies.

Educational objectives

After completing this activity, the participant should be better able to:

- Explain the importance of early diagnosis in the prevention of ischemia, injury and infarction.

- Demonstrate correct knowledge of axis, recall standard and augmented limb leads, and interpret axis deviation.
- Discuss the role of ischemia behind chest pain and suspected acute coronary syndrome.
- Explain the link between problems in blood supply to heart muscle injury.
- Discuss the ECG steps of myocardial infarction.

Faculty

- Judith Haluka, EMT-Paramedic – State of Pennsylvania
- Dr. Waqar-UI-Haq Shafaat, MD

Joint Accreditation Statement

In support of improving patient care, this activity has been planned and implemented by the Postgraduate Institute for Medicine and Pacific Medical Training. Postgraduate Institute for Medicine is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

JOINT ACCREDITATION™
INTERPROFESSIONAL CONTINUING EDUCATION

Physician continuing medical education

The Postgraduate Institute for Medicine designates this enduring material for a maximum of 8.0 *AMA PRA Category 1 Credits*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Nursing continuing education

The maximum number of hours awarded for this continuing nursing education activity is 8.0 contact hours.

Disclosure of conflicts of interest

Postgraduate Institute for Medicine (PIM) requires faculty, planners, and others in control of educational content to disclose all their financial relationships with ineligible companies. All identified conflicts of interest (COI) are thoroughly vetted and mitigated according to PIM policy. PIM is committed to providing its learners with high quality accredited continuing education activities and related materials that promote improvements or quality in healthcare and not a specific proprietary business interest of an ineligible company.

The faculty reported the following relevant financial relationships with ineligible entities related to the educational content of this CE activity:

- Judith Haluka — Has no real or apparent conflicts of interest to report.
- Waqar-ul-Haq Shafaat, MD — Has no real or apparent conflicts of interest to report.

The PIM planners and managers have nothing to disclose. The Pacific Medical Training planners and managers have nothing to disclose.

Method of participation and request for credit

During the period 2021-06-01 through 2024-06-01 participants must read the learning objectives and faculty disclosures and study the educational activity.

Your CME certificate will be available online after completing a post-course evaluation, and achieving a score of 84% or better.

Disclosure of unlabeled use

This educational activity may contain discussion of published and/or investigational uses of agents that are not indicated by the Food and Drug Administration (FDA). The planners of this activity do not recommend the use of any agent outside of the labeled indications.

The opinions expressed in the educational activity are those of the faculty and do not necessarily represent the views of the planners. Please refer to the official prescribing information for each product for discussion of approved indications, contraindications, and warnings.

Disclaimer

Participants have an implied responsibility to use the newly acquired information to enhance patient outcomes and their own professional development. The information presented in this activity is not meant to serve as a guideline for patient management. Any procedures, medications, or other courses of diagnosis or treatment discussed or suggested in this activity should not be used by clinicians without evaluation of their patient's conditions and possible contraindications and/or dangers in use, review of any applicable manufacturer's product information, and comparison with recommendations of other authorities.
